

March 31, 1980

LB 954

bill and that particular approach, what do you have left in the bill?

SENATOR KELLY: This is the Nebraska energy policy bill. The only thing I would be doing would be insulating the Nebraska Mortgage Finance Fund. It is difficult for me to tie house mortgage funds and the Nebraska state energy policy together though I would believe there must be an awful lot left in that bill.

SENATOR LEWIS: I would like to ask Senator DeCamp a question.

SPEAKER MARVEL: Senator DeCamp, do you yield?

SENATOR DeCAMP: Yes, sir.

SENATOR LEWIS: Senator DeCamp, first of all, you are not in favor of the Kelly motion, is that correct?

SENATOR DeCAMP: I am very, very strongly opposed to the Kelly motion. I think in this fund we have done everything, everything that could be reasonably asked to make it acceptable and workable and will cause some good for the state.

SENATOR LEWIS: Thank you, John. Now, if you were to take the Kelly motion and eliminate it from the bill, what would occur? John, you are on my time. What would happen if you would accept the Kelly motion? What would be left in the bill and what would be its viability?

SENATOR DeCAMP: You would still have the other seven major parts of the bill. However, I personally consider this part one of the critical parts, one of the parts that in coming months will be seen to be as one of the mechanisms to keep cash flowing into this state from private people and cash providing jobs and employment and weatherization or improvement of homes when we will not be able to get this money from any other source and that is an absolute.

SENATOR LEWIS: Thank you.

SPEAKER MARVEL: Senator Reutzel, do you wish to speak on the Kelly amendment? The question has been called for. Do I see five hands? Okay. All those in favor of ceasing debate vote aye, opposed no. The motion is shall debate cease. Have you all voted? We are voting on a motion to cease debate? Record.
